

Topaz 6M Smart Panel – 1 Fan + 5 Switch + 1 Socket + Master (Hotel Series)

Key Highlight

- Integrated 5 switches, fan control, Norisys socket and master key in one 6M panel
- Supports AC loads up to 16A and fan loads up to 85W
- WiFi app control, RF remote support and voice assistant compatibility

Production Information

The Topaz 6M Smart Panel – Hotel Series is a complete room automation solution designed for hotels, serviced apartments and premium residential spaces. Built to fit a 6M box with a sleek 238 mm x 86 mm toughened glass fascia, it combines multiple load controls into a single elegant interface.

This model includes five lighting outputs, one dedicated fan control, a Norisys socket and a master control key for centralized operation. Each output is rated at 230V AC 16 Amp, supporting air conditioning loads, LED lamps and incandescent lighting up to 16A. The fan output supports loads up to 85 watts, while the socket option is available in 6A or 16A configuration.

The panel features a smart capacitive touch interface for smooth and responsive operation. The 3 mm rounded edge toughened glass front fascia enhances durability while maintaining a modern appearance suitable for hotel interiors.

A built-in proximity sensor enables proxy wake-up functionality, activating the touch interface when a hand approaches within 1 foot. This improves ease of use, especially in low-light conditions.

With 2.4 GHz WiFi connectivity, the panel allows mobile app-based control for remote management. RF remote compatibility provides convenient in-room control. It also supports voice commands through Google Assistant and Amazon Alexa, enabling seamless integration into smart room automation systems.

Technical Specifications

Fitment Box	6M
Glass Size	238 mm (L) x 86 mm (W)
Number of Outputs	Five Switches + One Fan
Load Type	Air Conditioning, LED Lamp, Incandescent Load up to 16A
Output Contact Rating	230V AC, 16 Amp
Fan Load Capacity	Up to 85 Watt
Socket Type	Norisys Socket (6A or 16A option)
Switch Type	Smart Capacitive Touch
Front Fascia	3 mm Rounded Edge Toughened Glass
Proximity Sensor	Yes (Proxy Wake-up)
Wake-Up Range	Up to 1 Foot
WiFi Connectivity	2.4 GHz (Mobile App Based Control)
Remote Support	RF Remote
Voice Compatibility	Google Assistant & Amazon Alexa
Input Supply	90V to 250V AC
Application Area	Hotel Rooms, Serviced Apartments, Residential Rooms
