

## 84-Key Rugged Keyboard with Integrated Touchpad (USB Output)

The 84-Key Rugged Keyboard features an integrated touchpad on a single PCB with a USB output interface, providing a compact and space-saving input solution for industrial and embedded applications. Specifically designed for demanding environments, the keyboard offers a waterproof, washable, rigid, and rugged construction, ensuring reliable operation in harsh industrial conditions. Its plug-and-play USB connectivity enables seamless integration with compatible systems, making it suitable for industrial automation, medical equipment, kiosks, transportation, and other mission-critical applications.

Touchpad With Gesture Operations :

|                |                                                              |
|----------------|--------------------------------------------------------------|
| Left Click     | Click On Touchpad For Left Button Operation                  |

| Scroll Up/Down | Slide Two Figure Up & Down On Touchpad For Scroll Operation  |
| Zoom In/Out    | Pinch Your Thumb & Finger Open Or Closed To Zoom in Or Out   |

## Specifications :

- Keyboard - 84 Keys With Touchpad.
- Interface - USB Or Bluetooth (802.15.1).
- Bluetooth Range - 10M
- Keyboard Dimensions - 340(L) x 135(W) x 5.50(T) mm
- Voltage - 2.5V To 5.5V
- Working Current - <50mA
- Charge Current - <1A
- Battrey - 3.7V Li-Ion Battrey.
- Protection Level - Ip68
- Life - 1 Million Switches Operation.

## Features :

- Industry Standard Size.
- USB Compatibility.
- Bluetooth v4.2 Compatibility
- Low Power Consumption
- On Board Mechanical Button For Left And Right Button Operation.
- Two Finger Gesture Detection.
- Jumper Setting For Selection Of USB Or Bluetooth.
- Windows Compatible no Additional Driver Required (Plug And Play).
- Power SW - PC Shut Down Command.
- 3.7 Li-Ion Battrey Charging

## Application :

- Industrial Keyboard
- Medical Instrument
- PC Peripheral
- Keyboard for Android Phone/Tab/ipad/imac/iphone
- Keyboard / Mouse Alternative

## Compatibility :

- All USB Supported System.
- Bluetooth Support Windows 8 And Earlier, Mac And Android.
