

MPN. 22-5865

The Kee to Excellence...

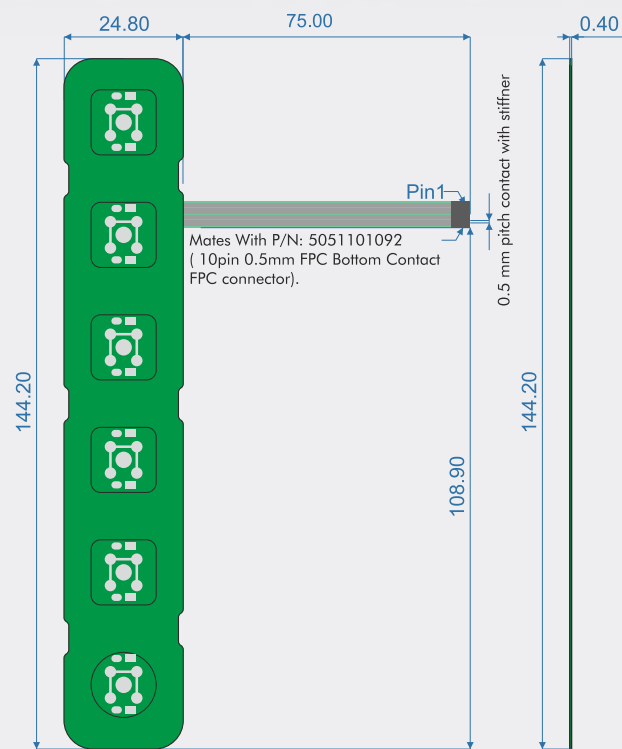

Keetronics offers a range of Silicon Rubber Keypad with Illumination.

- 1.Available in a variety of color combinations.
- 2.Excellent for Design / Prototype / Projects.
- 3.Facility to print key text or key symbols.

Rubber Mechanical Drawing

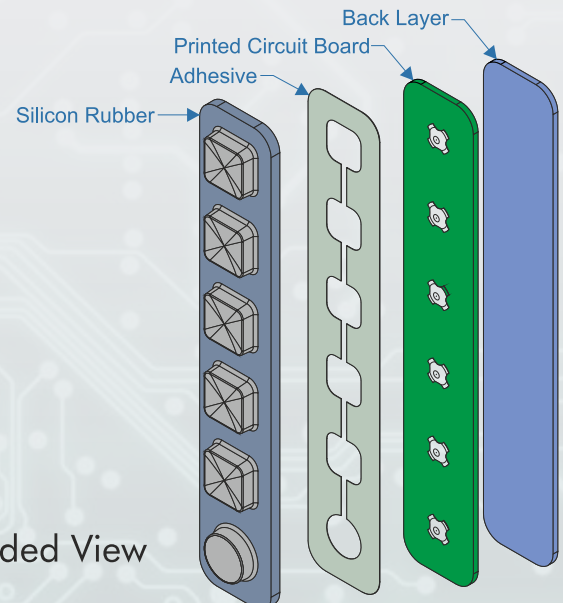

Printed Circuit Board

Construction

Total Keypad Thickness: 3.6(+/-0.2)mm

Specifications:

- 1.The Keypad comply for the following environment conditions:
 - A)High temperature storage: +70° C , Operating : +55° C,
 - B)Low temperature storage: -30° C , Operating : -20° C,
 - C)Altitude: 4500M at-20C
 - D)Mould Growth: JSS 55555, Test-21
- 2.Domes P/N. Truetone Make:SG 7-4-LEG-180 / Snaptron Make: F07320
- 3.Key life cycle: 2 Million.
- 4.Current limiting resistors at customer end.
- 5.Keyboard withstands for IP68 compliance
